

## Project requirements

Name:	Joseph Bello
Community (UN SD goal):	UN Goal 5: Achieve gender equality and empower all women and girls
Date:	Oct 19, 2021

<b>Project Name</b>	SAS
---------------------	-----

### Functional Requirements

Location Services - The application will have location services that will help to accurately determine the user's location when the users share a story.

Users should be able to share their story which will be posted on the database. These stories should be retrieved from the db on the homepage without the users having to refresh the screen.

Users should go through full authentication (sign in, sign up, verify email, logout).

Users should be anonymous when they share their stories.

### Technical/Performance Requirements

The app should run in real-time. No need to refresh to see newly submitted stories.

**The app should have full user authentication**
